

MEGH HARESHKUMAR PATEL

Anand, Gujarat, India

📞 7990363741 — ✉ meghpatel0009@gmail.com — [🐙 GitHub](#) — [🌐 LinkedIn](#) — [🌐 Portfolio](#)

Summary

Full-stack developer with strong experience in **React**, **Node.js**, and backend systems, with hands-on work in **data pipelines and scalable web applications**. Proven through open-source contributions and collaborative development. Currently expanding into AI-driven applications using Python.

Education

Birla Vishvakarma Mahavidyalaya (BVM), Anand
CGPA: 8.87

B.Tech Computer Engineering

Projects

- **Books Web Scraper (ETL Pipeline)** [GitHub](#)
 - Built an ETL pipeline using **Scrapy** to extract structured data from multi-page sources
 - Implemented **MongoDB storage** with duplicate prevention using SHA256 hashing
 - Designed scalable data flow with automated pagination and transformation logic
 - Managed secure configuration using environment variables
- **SocSys (Society Management System)** [Live](#)
 - Developed a scalable web application using **React and Tailwind CSS**
 - Built modular UI components and managed structured data flow
 - Deployed on Vercel with performance optimization and responsive design
- **Nova HRM (Team Project)** [GitHub](#)
 - Contributed as an active developer in a team-based HR management system
 - Developed and improved frontend components using React for employee workflows
 - Collaborated using Git in a multi-contributor codebase
- **File Management System with Encryption (C++)** [GitHub](#)
 - Built a CLI-based system implementing file encryption and decryption
 - Applied OOP principles for secure and modular file operations

Technical Skills

- **Frontend:** React, JavaScript, HTML, CSS, Tailwind CSS
- **Backend:** Node.js, Express.js
- **Data & Tools:** Python (NumPy, Pandas, Matplotlib), MongoDB
- **Languages:** C++, SQL
- **Tools:** Git, Figma

Achievements & Contributions

- Hacktoberfest Super Contributor
- Winner of Supabase Campus Competition – received official Supabase Swagbox
- Open Source Contributions:
 - Improved UI/UX and controls in AlgoVisualizer (merged PR)
 - Integrated Grammar Checker using external API in WordWizard (merged PR)
 - Implemented theme toggle with persistent state in Regex Generator (merged PR)
 - Enhanced UI and added features in ChatApp (merged PR)
- **Profiles:** [Holopin](#) — [LeetCode](#)
- Graphics Supervisor at GeeksforGeeks Student Chapter
